**Description:** Mercedes-Benz AG (?MBAG?) has determined that on certain Sprinter vehicles, due to an interaction between a SIM card security mechanism and the affected SIM profile, the SIM card might inadvertently become disabled. Should this occur, the communication module would not be able to establish a connection with a mobile phone network. In this case, the eCall function would not be available. Therefore, the condition may preclude or delay the arrival of emergency responders. This might increase the consequences of an injury following an emergency event. An authorized Mercedes-Benz Sprinter dealership will replace the eCall communication module.

| <b>Ownership History</b><br>CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history. |
| <b>Title Issued</b><br>A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.                                                                                                                                                                                                                                                                                                                                                                    |
